

Outlook Academy Continuity of Learning Plan 2020-21

While there is no substitute for education with highly qualified educators in the school environment, the District or Public School Academy will, in good faith, provide students with disabilities (IFSPs, IEPs, Section 504 Plans) the opportunity to participate in learning consistent with their existing plans. An Individual Contingency Learning Plan (ICLP) must be considered for all students with a disability as identified by a Section 504 Plan, Individualized Program (IEP) or an Individualized Family Support Plan (IFSP). The ICLP is a temporary plan intended to support a student with a disability in our emergency remote learning environment. The plan will be aligned to the individual's existing plan but may also reflect needs presented due to our emergency remote learning environment. Individual circumstances determine the need for an ICLP.

- If the student's 504 Plan, IEP or IFSP can be implemented as currently written in our emergency remote learning environment. There is no need for an ICLP.
- If the student has a 504 Plan that is only warranted during a regular school environment. There is no need for an ICLP.
- If the parent/guardian has provided notice (verbal or written) that they will not participate with the district's continuity of learning plan, there is no need for an ICLP. This will be revisited upon parent request.
- If the student's existing 504 Plan, IEP or IFSP can not be implemented as written, there is a need for an ICLP.
- If the district had a child-find obligation prior to the mandated school closure. There is a need for an ICLP.
